

Technology in Your Care

This notice explains the medical technology, including artificial intelligence (AI), that Dr. Hayton uses to prepare for visits and document your care, and why agreeing to it is a condition of being a patient at Hayton Primary Care. Please read it, ask any questions, and sign the acknowledgment on the next page.

1 WHAT WE USE

Preparing for your visits. Before and between visits, AI tools help Dr. Hayton review and summarize records from other clinicians and organize your health information, so important details are not missed.

Ambient documentation (an “AI scribe”). During visits in person, by video, or by phone, an ambient documentation tool may listen to the conversation. It may draft parts of Dr. Hayton’s note, or simply help make sure nothing discussed is forgotten, so he can focus on you instead of a keyboard.

Other AI tools. Dr. Hayton may also use AI tools to help draft messages, letters, and forms.

2 WHAT DOES NOT CHANGE

- Dr. Hayton reviews, corrects, and signs every note. AI tools do not decide your diagnosis or treatment — Dr. Hayton does.
- The note Dr. Hayton signs is part of your medical record. You may request a copy as described in our Notice of Privacy Practices.
- You can always ask Dr. Hayton how a note was prepared or ask him to correct something in it.

3 HOW YOUR INFORMATION IS PROTECTED

- Every company that provides these tools must sign a HIPAA business associate agreement, which requires it to protect your information and use it only as HIPAA allows.
- When the documentation tool is used, audio is captured only to help prepare documentation and is protected under the same agreements.
- We do not make video recordings of your visits.

4 PEOPLE WITH YOU

Anyone with you during a visit — family members, friends, caregivers, or interpreters — may also be heard by the documentation tool when it is in use. Please let them know.

5 WHY THERE IS NO OPT-OUT

These tools are built into how every chart at Hayton Primary Care is prepared and how care is documented. They cannot reliably be turned off for one patient without changing how care is handled for everyone. For that reason, agreeing to their use is a condition of becoming and remaining a patient here.

6 IF YOU DO NOT AGREE

- **New patients:** we cannot establish care, and we will help you find another primary care practice.
- **Current patients:** we will send you written notice, remain available for your urgent medical needs for 30 days after that notice, and send your records to your new practice when you ask.
- **If you have a disability** and need a change in how we provide care, tell us. Dr. Hayton reviews every request and will respond to you in writing.

7 QUESTIONS

Call (208) 247-4279 or ask Dr. Hayton at any visit.

Technology in Your Care — Acknowledgment

PATIENT FULL LEGAL NAME

DATE OF BIRTH

TODAY'S DATE

I have read (or had read to me) the notice *Technology in Your Care*. I understand that Hayton Primary Care uses medical technology, including artificial intelligence tools, to prepare for visits and document my care, which may include an ambient documentation tool during visits; that Dr. Hayton reviews this work and makes all decisions about my care; that people with me during a visit may also be heard; and that agreeing is a condition of receiving care at Hayton Primary Care.

☐ **I agree.** I want to receive care at Hayton Primary Care under these conditions.

☐ **I do not agree.** I understand that Hayton Primary Care will help me transition my care as described in the notice.
